Katrina,

Please look over where I have placed the PSG points. I took the PSG points from the East Tank Farm and moved them to Lorraine and Wilcox. I believe you had a total of 129 PSG points. I added one more to make it 130 points. I think this will give us better coverage and we will have a better understanding if VOCs are present or not. EA will be able to complete the PSG at the East Tank Farm and also possible complete any additional areas that are outside what is shown on the attached figures.

Let me know what you think?
